CUSTOM COLOURS

# ShutterGuard® Aluminium Security Shutters are a savvy, stylish, safety solution for windows or doors – offering security without compromising the aesthetics of your home, commercial or retail space.

The patented Gear-lock keeps the shutters in place. A 6cm patented bolt secures the shutters to the floor, leaving no leverage to lift the lock out of the track. A 3.4cm bolt secures the top track when locked. The Cisa system allows you to lock the shutters with a unique security key. Should you wish to have a double-sided lock please request this with us.

## TECHNICAL SPECIFICATIONS

<b>UV Blockage:</b>	100% when closed

 CUSTOM COLOURS

# Hurricane Aluminium Shutters were originally designed to protect windows and doors from storms and high winds without compromising the aesthetics of a home.

These stylish shutters, made entirely from aluminium, are not only good to look at but are functional, durable, won't rust, are easy to clean and therefore come with a 10 year warranty. As with ShutterGuard®, the folding, louvred shutters will open up a room as well as control light, noise and temperature.
